

Venture Philanthropy – Analyst Intern

Six Months Starting January 2021, Brussels

Fluency in French is mandatory

Who we are:

Telos Impact is a Brussels & Paris-based advisory firm in Venture Philanthropy and Impact Investing. Established in 2015, Telos has helped its clients deploy more than €100 million to high impact solutions and entrepreneurs.

Objective of the internship:

Your mission will be to support the **Venture Philanthropy team** in delivering its mission of growing the field of Philanthropy in Belgium and France – especially by taking ownership of strategic areas of impact that we work on, such as : environment, education, poverty, mental health.

What you will do:

- Build our knowledge base on Venture Philanthropy and Collective Impact (e.g. through desktop research, meetings with experts and key stakeholders in the industry)
- Screening opportunities through desktop research and discussions with social entrepreneurs
- Work on a real client cases closely with the team
- Develop training materials for foundations on topics such as Strategy, Talent Management, Project Screening and Monitoring, Capacity-building, ...

What we offer:

- Impact, contributing to the success of a mission-driven company at a crucial stage of its development;
- Learning, high exposure to the fascinating impact Venture Capital industry, with on-the-job coaching;
- Fun, dynamic and innovative working environment, driven by a caring team;
- Rewards, a competitive compensation and full coverage of expenses;
- We will think together about how to structure your internship project to maximize its relevance for you (e.g. exact topic, duration, ...).

Who we are looking for:

- Excellent academics, preferably in Economics, Commercial/Business/Civil Engineering;
- Recently graduated Master's degree;
- Demonstrated interest in Social Impact;
- Native French speaker, fluent in Dutch and/or English;
- Self-starter and independent thinker with strong problem solving, analytical and synthetical skills;
- Strong relational skills;
- Other skills that would be a plus: Financial modelling, Project management and/or Knowledge of impact measurement methodologies.

Application details:
